NIMA Exercise Program

- NIMA is 6 years old (OCT 96)
 - Predecessor agencies didn't have Exercise program
 - Exercise program funded for last 3 years
- Usually provide what CINCs ask for
 - Results mixed; rarely reflect NIMA's capabilities
- FY03 Goal: Focus on NIMA training needs
 - "Train as we fight" for NIMA personnel
 - Educate customers on NIMA capabilities
 - Continue to support major exercises

NIMA Training Assessments

- NIMA does **not** have a formal assessment program for either training support or operational assessments
- Some programs provide limited assessments
 - Biennial CSART
 - JMRR (*NIMA does not assess **Training***)
 - Operational / Exercise Lessons Learned
 - JCS RAP
 - Internal business process metrics
- Lack of AMETL / ATP is holding back ability to determine & assess training support to CINCs

What's Next?

- SEP 02: **AMETL** development kickoff
- OCT 02: NIMA funding 2 contractors for JTS support (do **not** have JTS Specialist)
- NOV 02: **ATP** development kickoff
